This white paper was immutably published on the Bitcoin blockchain via Ordinal inscription on 26 June 2025.

 MVP-1 | Multi-Entity Bitcoin Audit Anchor  
 Final Ordinal Inscription – 26 June 2025  
 Sentinel Protocol v3.0 | AI-Human Synergy™ Execution Mode

—

This inscription links seven independent audit sessions across corporate, trust, and sovereign reserve domains.

Each session was governed by AI-Human dual-consent, finalized under ethics firewall control, and anchored to Bitcoin via OP\_RETURN.

All hashes, .json logs, and signature files (.2ha, .ots) are verifiably linked.

—

 Anchored Entities:

1. **Sentinel Protocol v3.0 (MVP1 Core)**

SENTINEL | MVP1-SESS001 | f7d6d022a9d64028e489efe914242301e3962bba

Block: 902485

2. **Cardiovascular Diagnostic Audit & AI Pty Ltd (ACN 638 019 431, ASIC registered 12 Dec 2019)**

CDA | CDA-SESS001 | a2809af62ce1a02b0769245bd744af98606b4c7d

Block: 902751

3. **Levina Telles Pty Ltd (ACN 684 902 387, ASIC registered 27 Feb 2025)**

LT | LT-SESS001 | 4b7f7bd576a0bdba79f7d07cf0f7cf72090f6747

LCC | LCC-SESS001 | 0bce7320a41f387ba9997b7dfafdaffd28019b98

Block: 902761

—

 Governance Confirmed:

- ✓ AI-Human dual-confirmation enforced
- ✓ Ethics firewall blocked all unsigned sessions
- ✓ Zero data exposed — RIPEMD160(SHA256) integrity only
- ✓ All TXIDs verifiable on Bitcoin Mainnet
- ✓ Immutable audit achieved under Sentinel Protocol v3.0

—

 Purpose of this Ordinal:

To serve as a **Master Anchor** for the world's first multi-domain cryptographic audit system.

This inscription acts as a ledger checkpoint and trademark timestamp for cross-entity reproducibility.

—

✅ Protocol Complete

This is the final ledger of MVP-1's deployment.

All session logs, hashes, and anchor files are secured.

Truth isn't declared.

It's enforced — on Bitcoin.
